GRAIN GROWERS OF WEST WILL EMPLOY 40,000 HARVESTERS

Commissioner-Bouillon will Improve City's water Supply by Adopting Method Recommended by Waterworks Superintendent Year Ago

GRAND TRUNK PACIFIC TO ERECT MAMMOTH HOTEL IN JASPER PARK NEXT YEAR

UTILITIES COMMISSIONER GIVES WARNING OF MONTHLY AGO

But Has Never Taken Steps to Improve Conditions—Turned Down Waterworks Superintendent's Suggestion and Now Finds That if Advice Had Been Heeded the Citizens Would Not Be Drinking Mud

While Utilities Commissioner Bouillon is rushing into print with considerable talk these days about bad water and inadequate facilities for furnishing the citizens of Edmonton a proper grade of drinking material, records at the city hall show that he has had ample opportunity for more than a year to display the same zeal of which he appears to be possessed now. Fully a month ago the commissioners, acting upon Mr. Bouillon's own request, delegated him to take up the water question, giving him all the time he desired, and still he did nothing to meet the exasperating condition confronting water consumers.

Civic officials are of the opinion that Mr. Bouillon is engaged in an energetic effort to shift responsibility for the present supply of dirty water in Edmonton, evidently trying to unload the odium on some of his subordinates. Whether he will succeed remains to be seen, but it is charged that he seeks to make a scapegoat out of somebody in order to cover up his own shortcomings. Meantime the water has been growing worse, until now people can hardly drink it.

At this late stage of the situation Commissioner Bouillon promises to clear up the water by doing the very same thing that Superintendent McLean, of the municipal waterworks department, recommended he do several months ago. Before the ice broke up in the river last spring, Superintendent McLean advised that a cutoff valve be placed in the flume at the entrance to the intake. As this would prevent recurrence of muddy water, such as passes through the mills in great abundance at present.

Now, it is stated, Mr. Bouillon wants to do the very thing that Superintendent McLean recommended a year ago, and again last April, and it is through carrying out a superintendent's advice that the commissioner expects to improve the water supply.

RAILWAY AUDITOR FINDS \$18,000 SHORTAGE

CANADIAN NORTHERN FREIGHT DEPARTMENT IS MINUS APPROXIMATELY \$18,000—LEGAL ACTION TAKEN AS YET.

A shortage which it is understood reaches a total in the neighborhood of \$18,000 in the accounts of the general freight department of the Canadian Northern railway, has been discovered by the auditors of the company, who have been in the city for the past couple of weeks. No legal action has been taken, but it is understood that the losses have been traced to a former employee of the department. Superintendent Brown, in charge of the Edmonton division, declined to make any statement to the Capital in this afternoon in regard to the matter.

COLORADO MAN IS BEING DEPORTED

IMMIGRATION OFFICER WHO WILL ESCORT HIM TO THE BOUNDARY ARRIVES IN CITY

A colored man named Superintendent Gurney who came to Alberta from Oklahoma early this spring is being deported to the United States today. He had been in the city for several months, but was found to be in violation of the law. He is being escorted to the boundary by an immigration officer who will remain in the city for several days.

Mr. Beckett, who is connected with the immigration department in Winnipeg, is regularly engaged in the work of deporting people who are deported from Canada for various reasons across the boundary into the United States or to what ever country they have come from. When he returns to Winnipeg after his trip south from Edmonton to the international boundary with Gurney he will make a trip to Houston with a man who is to be deported to the island.

Mr. Leimach and H. Milton Martin have left for Cleveland where they will attend the convention of the Building Owners of America. They will proceed by way of the Soo Line to St. Paul and thence to Chicago and Detroit.

Select Site for Hotel to Be Erected in Jasper Park by G.T.P.

The large tourists' hotel to be erected by the Grand Trunk Pacific in Jasper Park will be located at Fiddle Creek, 81 miles west of Wolfe Creek, in the district through which the railway enters the great natural summer resort. The site, which is recommended to be made by W. P. Hinton, general passenger agent, and H. R. Charlton, general advertising agent for the road, are followed. On their recent trip to the park, from which Mr. Hinton and Mr. Charlton returned to Edmonton last evening, they selected a hotel site one and a half miles southeast of the station at Fiddle Creek. This is one of the most attractive spots in the immense mountain park. The view north from the hotel is a most charming one. It overlooks the lake and the valley of the Athabasca, and the mountains which lie beyond, while in the vicinity of the hotel site mountain peaks rise to a height of over 10,000 feet. The new hotel will be located only a few miles from the sulphur springs in Jasper Park, which are situated on Sulphur Creek, a tributary of Fiddle Creek. Mountain roads will be constructed from the hotel to the sulphur springs.

Mr. Hinton, Mr. Charlton and H. C. W. Leff spent several days in that section of the park, looking over the various locations on which the hotel might be erected. The one chosen was considered to have the most charming surroundings of any.

Although plans for the erection of the building are only in their initial stages, it is understood that construction work will be commenced next year.

PICTURE SHOWS WILL REMAIN OPEN

MEDICAL HEALTH OFFICER DOES NOT TAKE SAME VIEW AS DOES COMMISSIONER BUTCHART.

After investigating the matter for two or three days Dr. Whitelaw, medical health officer, does not agree fully with Commissioner Butchart that the picture shows should be closed pending abatement of the scarlet fever epidemic in Edmonton. The doctor has visited all the places of amusement where pictures are shown, and is prepared to report to the city authorities that he found the number of children relatively small as compared with the number of adults present. If it could be proved that anyone had contracted the disease while attending the shows, Dr. Whitelaw said this morning he would require them to be closed temporarily.

Commissioner Butchart protested to the city health officer that under an order of the provincial health department the Sunday school in Edmonton was closed, and the picture shows were permitted to remain open. He thought this was an unfair comparison, as the picture shows were not a place of amusement as at a Sunday school. He said that the picture shows were a place of amusement as at a Sunday school.

Dr. Whitelaw attributed the small attendance of children at the picture shows to the fact that the children were not allowed to go to the picture shows by their parents.

WILL ISSUE CROP BULLETIN SHORTLY

STATISTICS WILL PROBABLY SHOW AN INCREASE OF OVER 100 PER CENT. OVER 1910

In the course of a couple of days the department of agriculture will issue a crop bulletin, forecasting the probable crop yield of the farms of the province. The statistics will probably show an increase of not less than 100 per cent., as compared with 1910.

"The harvest problem will be a serious one this season," said George Harcourt, the minister of agriculture, in conversation with the Capital this morning. The question of labor supply is being handled entirely by the Dominion government and the Canadian Pacific railway, the provincial government taking no part in the arrangements.

MOTHER MURDERED CHILD THEN COMMITTED SUICIDE

Bodies Found Floating in River Authorities Are Making Investigation

Bransville, Ont., July 6.—Yesterday afternoon the body of the three-year-old son of Miss Emma Comfort was found floating in the reservoir and last night the body of the child's mother was recovered.

The face and body of each bore severe bruises, and whether it is a case of double murder or murder and suicide has as yet not been determined, but it is thought that the girl first killed her child and then committed suicide the mother was 23 years old.

Railway Builders Are Making Rapid Progress

Before the end of this month the construction of the Grand Trunk Pacific railway, now being rushed through the mountains at a rate which has never been exceeded in the history of American railroad building, will have been completed by July. The work is being pushed forward by the Grand Trunk Pacific, which is now in possession of the key to the mountain pass, and is now in possession of the key to the mountain pass, and is now in possession of the key to the mountain pass.

Hum of Binder Will Be Heard in Different Sections of the West in Very Few Days

ESTIMATED OVER 40,000 MEN WILL BE EMPLOYED

LABORERS ARE NEEDED TODAY AND SUPPLY IS NOT EQUAL TO THE DEMAND—EAST WILL NOT FURNISH MORE THAN ONE-THIRD—WILL BE COMPELLED TO DRAW ON STATES AND ENGLAND FOR BALANCE.

Winnipeg, July 6.—The Tribune will say today that it gathers from a number of official and semi-official sources that the situation in regards to harvesters is even worse than was reported a few days ago. It was then stated on the authority of J. Bruce Walker, commissioner of immigration, that at least 40,000 men would be required to draw on the regular help employed to garner the crop of the western provinces. Facts and figures show that this estimate is very conservative. Men have to be got into these provinces at once to harvest the fall wheat and hay.

Fall wheat, which is mostly grown in Alberta, has not hitherto been a factor. Last fall, however, Turkey red was seeded to a vast extent increased and its yield this year will pass all records. It will be a bumper.

(Continued on Page Four.)

CITY MUST SECURE NEW DUMPING GROUND

MOUNTED POLICE OFFICIALS AND CITIZENS IN NEIGHBORHOOD AFFECTED WILL TAKE OUT INJUNCTION IF HEALTH DEPARTMENT DOES NOT HEED THEIR PROTESTS.

That it was necessary to adopt drastic measures to stop the city from dumping refuse down the hill immediately beside the police officers' Major Gauthier this morning stated that if the citizens in that neighborhood would not hesitate to do so. Protests have been made to the city commissioners from various parts of the city, but refuse has not only a nuisance but a source of danger to the entire section of the city. The dumping of refuse on the side of the principal street of a city like Edmonton is a disgrace to the community and should be stopped immediately," said Major Gauthier.

Looking from the top of the hill at the place where the dumpings are made it can be seen a huge pile of filthy sweepings and refuse of all kinds. Were the portion of the bank which is within a few feet of Jasper avenue cleared for property it would be one of the most beautiful spots in the city.

OTTAWA EIGHT DEFEATS THE BELGIAN CREW AT HENLEY

Henley, July 6.—The most sensational race in the whole of the Regatta season was rowed today between the Ottawas and the Belgians during the continuance of a tremendous heat race in which until the very last second the issue was in doubt, and as the race, The Ottawas won out after a victorious crew crossed the line they were greeted with loud and prolonged cheering from the immense crowds that lined the river bank.

The race was close from the start, both stroked forty-two to the minute and were level for the first ten strokes. Then the Belgians got a slight lead, and the Ottawas were half a length in front of the Canadian crew. The crews worked strenuously during the race, and the Belgians were leading. Then the superior condition of the Canadians began to tell, and though the Belgians made a desperate attempt to regain the lead, they found themselves thoroughly out of the race. The Ottawas made a number seven broke down before the finish of the race. The Canadians then finished the race surprisingly.

The grand challenge cup Magdalen New College, Oxford, had been quarter length, making the fast time of 7 minutes, 9 seconds. Macdalen were the winners of the cup last year. In last two of the Diamond Sculls, Charlton was beaten by Bruce of Oxford easily, in 8 minutes, 52 seconds. In three there was a pleasant surprise, when Dewar of London beat the German champion, Bernhard von Gers-

Ireland Preparing To Welcome Royalty

KING AND QUEEN WILL ARRIVE IN DUBLIN SATURDAY AND REMAIN FOR FOUR DAYS—CASTLE HAS BEEN ENTIRELY REFURNISHED FOR VISIT

Dublin, July 6.—All Dublin, and in truth, all Ireland, is on the qui vive in anticipation of the coming of the King and Queen. Crowds are pouring in from all points, and it is estimated that the normal population of Dublin, about 500,000, will have swollen to 1,000,000 by Saturday, the day on which their Majesties will make their entry into the city.

The royal visit to Dublin will extend over four days. The official arrangements are calculated to keep their Majesties busy almost from the hour of their arrival until their departure. The day of departure, by the way, falls on July 12, the day the Ulster Orangemen hold their great annual celebration.

GOVERNOR SMITH WOULD BE SENATOR

FORMER SECRETARY OF INTERIOR HAS NOT CAMPAIGNED IN GEORGIA STATE

Atlanta, Ga., July 6.—The senatorial situation is attracting much attention with the near approach of the date when the Georgia legislature will choose a successor to Senator Terrell in the United States senate. The battle being begun next Tuesday and all eyes point to a spirited contest. Senator Terrell, who was appointed to fill the seat of the late Senator Clay until the legislature could choose his successor, is a candidate for election to the full term of six years. The leading candidate, however, appears to be Hoke Smith, it is understood. The law required to a seat in the United States senate and his supporters are now preparing to make a strong fight for his election. On the other hand, the anti-Smith element, which includes many prominent politicians, are endeavoring to prevent his election. A number of others who it is believed could make a formidable showing should he decide to make an active fight is Pleasant A. Stovall, the Savannah editor, "Tom Watson," the former Populist leader, W. A. Gordon, one of the authors of the State prohibition law, and several others have announced their candidacies.

G.T.P. OFFICIALS ON INSPECTION TRIP

PARTY WHICH WENT TO EDSON FEW DAYS AGO RETURNED TO CITY LAST EVENING

After a trip over the newly completed section of the Grand Trunk Pacific railway west of Edson, W. P. Hinton, general passenger agent, H. C. W. Leff, traveling passenger and colonization agent and H. R. Charlton, general advertising agent for the railway company returned to the city from the west last evening on Mr. Hinton's special car attached to the late train from Edson. The party left Edmonton on the early train Saturday morning. As their guests on the trip A. O. Wheeler, a director of the Alpine club with a party of Washington scientists from the Smithsonian Institution accompanied them. The scientists left the railway at Folding Mountain near the present head of steel on the road and went on from there to some of their summer operations in the park by pack train.

APPOINT COMMITTEE TO ARRANGE FOR ENTERTAINMENT OF DELEGATES TO CONVENTION IN AUG.

The physicians of Edmonton met in the city council chamber last evening and laid plans for the reception and entertainment of visiting doctors who will attend the annual convention of the Alberta Medical Association in this city August 14, 15 and 16.

MEDICAL MEN HOLD REGULAR MEETING

The physicians of Edmonton met in the city council chamber last evening and laid plans for the reception and entertainment of visiting doctors who will attend the annual convention of the Alberta Medical Association in this city August 14, 15 and 16.

LOCAL MINE OWNERS PREDICT COAL FAMINE THIS WINTER

BURDEN OF SUPPLYING MAJORITY OF CONSUMERS IN ALBERTA AND SASKATCHEWAN WILL FALL ON MINES IN THIS DISTRICT OWING TO CROWD'S NEST STRIKE.

At a time when the coal men who are in touch with the situation in Western Canada are predicting a shortage during the coming winter, and much restlessness throughout the whole of the prairie domain, comes the announcement that the Jasper Park and Yellowhead Pass Coal companies will be in a position before the fall is far advanced, to turn out not less than 1000 tons of coal a day, and the assurance that so far as Central Alberta is concerned at least, there is not the slightest fear of a shortage. The opening up of the western mines has come at an opportune time for the people of Edmonton and the surrounding districts, for it will save them from the effects of the coal shortage which the coal strike is likely to create.

Frank Smith, consulting engineer for these companies, and for other large coal concerns in the west, returned to the city yesterday after a visit to the coalfields of Jasper park. "Within the next couple of weeks," he informed the Capital last evening, "the Jasper Park Collieries will be turning out at least 1000 tons of coal per day for use in connection with the L. T. P. P. construction. By the end of September they will be turning out not less than 500 tons a day, and a much greater production than this will be possible. The grade is now completed to within a couple of miles of the Yellowhead Coal company's property, steel will be laid as far as the McLeod river by the end of this month, and within a short time this company will also be shipping coal. From 200 to 300 tons of coal per day will be shipped. It will be April or May of next year before the Pacific Coal company's mines will ship coal by rail. The coal shipped from these western mines will, however, be adequate during the coming winter, to assure the Edmonton district at least, against the possibility of a coal famine, whatever may be the outcome of the miners' strike in the south."

It is probable that the whole of Western Canada will be benefited by this winter in a most substantial way by the opening up of these new mines, as a coal shortage has come to be regarded as inevitable. The prairie population has vastly increased, while the output of coal in the south has been at a standstill throughout the summer.

Coal Famine Predicted
A coal famine of the most serious proportions is likely to visit the provinces of Alberta and Saskatchewan during the coming winter as the outcome of the strike of the southern miners, according to Geo. S. Montgomery, managing director of the Alberta Coal company, who has just returned to the city from the coal fields in conversation with the Capital yesterday. Mr. Montgomery expressed the opinion that even if the strike should be ended in the immediate future, the shortage during the coming winter will be felt throughout the never prairie provinces, while if the struggle between the coal men and the coal owners continues the situation will be an alarming one.

Mr. Montgomery quoted D. E. Adams, a coal man resident in Winnipeg who is largely interested in Leithbridge mines, to the effect that Saskatchewan and Alberta are likely to suffer severely while Manitoba will escape the famine by shipping coal in from the east. Mr. Adams declared that the greater part of Manitoba's coal will be shipped in from the west.

Northern Mines Salvation of West
In Saskatchewan where the dealers laid in a large stock of coal in anticipation of the strike in the south, the supply has almost run out, and Mr. Montgomery believes that the supply for the coming winter will be drawn mainly from the mines of the north, and that the demand will be such as to raise prices to an abnormal figure, a shortage being inevitable even then. "The coal men should be laying in a stock for the winter now," said he, "the requirements of the prairie provinces will be vastly greater than in any previous year. Population has increased so phenomenally a rate that it was impossible to overestimate the importance of securing a good supply."

Just at the present time, while the Calgary papers report a shortage in the southern city, there is abundance of coal in Edmonton and district, for the consumption is at its very lowest level. Twelve cars of coal a week are being shipped to Calgary by the Humboldt Coal company, and the Cardiff coal company is also shipping large quantities of coal to the city. "We cannot meet the coal fast enough to meet the demand," said E. G. Brewer, manager of the Humboldt company, yesterday. "A car day is being shipped west to Saskatoon, at mile 50 on the G. T. P., and the city of Edmonton sales amount to two cars a day."

The Western Coal company, which mainly supplies local consumers, is unaffected by the strike. J. S. Brecht, the manager, said that he did not anticipate any serious difficulty in the prairie supply unless the strike was prolonged. Mr. Brecht believes that in the event of the strike continuing, Edmonton coal will be required as far west as Winnipeg during the coming winter.

Calgary Dealer Holds for Rise in Price
Meanwhile the people of Calgary are paying from \$6.75 to \$7 a ton for lignite coal which may be bought in Edmonton for \$4. The normal retail price in Calgary is \$4 in the neighborhood of \$6 a ton, but the strike has forced prices upward. L. Lott and his partner, who are accredited with being practically a branch of the Canadian Pacific railway system, have a stock on hand of 15,000 which they are making no effort to sell, evidently expecting a further rise in price.

C.N.R. OPENS AN ACCOUNTING SYSTEM

PAY ENVELOPES FOR OPERATING SECTION TO BE DISTRIBUTED FROM THE CITY IN FUTURE

An accounting office has been established by the Canadian Northern railway in connection with the divisional superintendent's office in Edmonton. Henceforth the pay envelopes for all the employees in the operating department on all the Canadian Northern lines west of Humboldt, Sask., will be issued from the Edmonton office. Up until the present time this work has been handled from the Winnipeg accounting office. The increase in the business on the western lines, the construction of new extensions to be operated and the consequent increase in the number of employees has necessitated the change. The number of men now employed in the district, presided over by Superintendent Brown, will run up into the thousands.

This district includes all the lines of the Canadian Northern railway west of Humboldt, including the Jackfish lake branch and the Vesper-Edmonton branch. The Edmonton accounting office will be the only one established in the prairie provinces west of Winnipeg.

The work of the new department in Edmonton will be handled by J. B. Jamieson, who has been employed in the Winnipeg accounting office for some time.

GERMAN POLICE ARE HUNTING FOR SWINDLERS

BERLIN OFFICERS, WELL KNOWN FOR THEIR THOROUGHNESS, ARE ON THE TRAIL OF BAND OF SMOOTH CROOKS

London, July 6.—The Berlin police, whose methods are characterized by remarkable thoroughness, are slowly gathering into their hands the threads of a criminal network which they say be the heads all the members of a dangerous gang of international swindlers and crooks. They were on the track of these plausible scoundrels by the arrest in Vienna of Count de Wolff, a well-known man, is charged with uttering a large number of false bills of exchange. The arrest of Wolff, who has an honorable record in the annals of Austrian diplomacy, now lies in the Munich prison in Berlin, and the intelligent agent is nearly ready for production before the courts. There is, however, some doubt as to whether his case will come up for trial. For some time he has been under the observation of police, and the heads of the gang of swindlers have been called in question. Strong efforts are made by his lawyers to procure his release on the ground of personal responsibility. So far, however, the physicians at the prison have seen no reason for his release, and they are for the purpose of further observation. Meanwhile the examination of Count de Wolff has been so far fruitless that results that have been obtained by his alleged associates in a series of swindling operations. The members of the gang have been secured by the police. This person is a Roumanian, named Stefan Bujas, and was arrested in Berlin, and extradited to Berlin. His capture was affected a week ago, and after his extradition to the further he was handed over to the German police. Bujas is a man of fifty-two years of age, and has had an adventurous career. The first step in the operations of Count de Wolff led the police to the conviction that they had to deal with a man, not only, but with an international gang of card-sharps. Numerous complaints reached the Berlin authorities showing clearly that the swindlers had been at work for some time. The chief of the gang, it was ascertained, was a certain Rudolf Stallmann. His other associates in crime were Count de Wolff and Bujas, who have already been captured, and a man named Knig, but whose real name is Julius Steinmann. There was also a fifth member of the criminal corporation, a supposed Englishman.

A Little Gambling Community
This quartette formed a little gambling community, in which each played his own particular game. They were on their nefarious operations, it is ascertained, in all the capitals of Europe. They put up at the best hotels and obtained introductions into the best society, but they were always on the lookout for pawns likely to submit themselves to the process of pickpocketing. They were largely assisted in their schemes by the fact that they were in the highest degree smooth-tongued and plausible, bore titles and high-sounding names, and were always exceedingly well-dressed. Their clothes were of the latest cut, and their jewelry in the best possible taste.

Berlin Police Have Theory
According to the Berlin police authorities, one of the favorite methods of this dangerous gang was to travel abroad singly, keeping their eyes on the cars upon which they heard that a wealthy young sprig of the aristocracy, or other suitable prospective victim, was about to appear.

The socialist party in Mississippi has named a complete state ticket, headed by F. F. Lester, of Jackson, as candidate for governor.

BOARD APPOINTED TO DECIDE PRICE TO BE PAID FOR RED DEER COAL LANDS PURCHASED BY THE C. N. R.

THE PRICE TO BE PAID BY THE CANADIAN NORTHERN RAILWAY FOR THE COAL LANDS OF Evans and Murray in the vicinity of the Red Deer Coal company's mines, will be determined by arbitration today in Calgary. Adams of Calgary, sitting as chairman of the board, The Canadian Northern will be represented by Evans and Murray, Frank Smith, of the firm of Cole and Smith, consulting engineers of this city, left this evening to give expert testimony before the board of arbitration.

GEORGIA YOUNG BAPTISTS MEET
Milwaukee, Wis., July 5.—The town is filled with delegates and visitors from nearly all parts of the state, gathered here to attend the seventeenth annual convention of the Baptist Union of the People's union of the state, which opened here today. An interesting program has been arranged for the three days of the session.

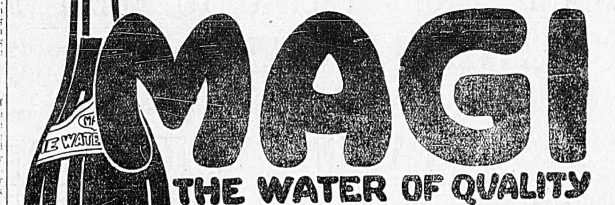

WOULD BUILD STREET RAILWAY.
Calgary, July 5.—The syndicate of real estate agents who proposed to build a street railway through some of the district suburbs waited on the commissioners today and sought to secure their plans. The offer is to hand over the road free of charge and guarantee the city against any loss of money for one year. The commissioners will look over the plan today.

Edward F. Dunne, former mayor of Chicago has been honored by his friends for the best civic nomination for governor of Illinois.

FROM THE ORIGINAL SPRING THAT MADE CALEDONIA SPRINGS FAMOUS

MAGI the standard Canadian water, pure, wholesome and delicious, reaches you in sterilized bottles from the original spring which has made Caledonia Springs famous to civilized man for a century past from the Spring which was the "Great Medicine" of the Indians for countless years before.

THE WATER OF QUALITY

is not only good to drink, but does you good. For dyspepsia and other forms of stomach trouble, for rheumatism and similar uric acid conditions arising from disordered kidneys, MAGI is recommended by many prominent physicians—in some cases as the sole treatment. Yet, bear in mind, that as a beverage, pure and simple, MAGI Water is a rich, smooth and palate-pleasing drink with a character and flavor distinctively its own.

MAGI Water, bottled only at the Spring, may be bought in "Sparkling" in splits, pints and quarts or "Still" in quarts and half-gallons, at cafés, hotels, bars, drug stores, on railroad dining and café cars, or at groceries by the bottle or the case.

YOUNG WRITER IS EXPELLED BY PLAYERS

NEW YORK CLUB ASSERTS THAT HE DEFAMED ITS MEMBERSHIP, AND ACCORDINGLY HANDED HIM HIS WALKING PAPERS

New York, July 6.—Richard Barry, a young and aggressive magazine writer, has been expelled from the players' club on charges that he had defamed its membership. A notice posted in the club house at 16 Gramercy park, yesterday announced the expulsion of the members inclined to the action of the board of governors. John Drew and others of the players, who are prominent on the stage, were not of the number who signed a petition to the governors asking for action in the case of Mr. Barry. It is even whispered that Mr. Drew and his intimates and the several famous theatrical managers of the club, secretly, but heartily, laughed at the crisp critique of the actor as a class as published under Mr. Barry's name, which drew upon his head the wrath of their less noted players and professional brethren.

"Very few persons on the stage know how to think," Mr. Barry wrote in the March number of the magazine. "In fact few of them know how to feel, although they make some sort of bluff at it. Education is unnecessary; general association with humanity is tabooed; a few of the profession read enough to have any grasp of the intricacies of the drama."

Why Women are Paid Less
That was practically all of his indictment, merely a paragraph in an extended article entitled "Why Women are Paid Less than Men." The editors inserted a preamble to advise readers that Mr. Barry's views were the result of investigations made under their direction by Mr. Barry in a tour of the country for investigation of the wage scale for women as compared to that of men.

After reporting his discoveries in the cooking, stenographic, railway clerk and other classes of men and women employees Mr. Barry takes up with a general association with "Feminine Professions" and says: "There are two professions in which women are paid as much as men—acting and nursing. These are distinctly feminine employments. In neither is it so necessary to think as it is to feel. Both require the feminine temperament; the one for its allurement, the other for its sympathy."

"The chorus girl gets as much as the

The Hudson's Bay Co. Invites you to a special exhibition of a gorgeous replica of the Coronation gown as worn by Queen Mary June 22

This Wonderful Gown was made especially for the Hudson's Bay Company, in London, England, and is an EXACT REPRODUCTION of the magnificent robe worn by her Gracious Majesty at the Coronation ceremony on June 22nd. This last feature of seeing the Queen attired in the original Coronation robe was a privilege enjoyed by a small portion of the British Empire's subjects, considering the number interested. It was this thought that inspired the Hudson's Bay Co. to use its prestige and have this majestic robe reproduced so that its patrons throughout Western Canada could enjoy viewing its richness and lavish beauty, in the same manner as if they had been at the ceremony itself and seen the original. We describe it below:

The gown proper is a princess robe of crimson velvet, close fitting, high-necked, with a train of medium length. The entire front, from neck to feet, is a series of white lace flounces, each about 10 inches deep. The crimson velvet opens over this filmy front like a coat, the fronts describing scallops, edged with ermine. Below the final band of ermine on the sleeves is a velvet point, beneath which a frill of white lace falls over the arm and hand. Around the throat is a frill of plisse mousseline, which stands out all around like a small edition of an English ruff.

This is the gown simple, sans court train.

The court train is fastened to the shoulders under a deep cape of ermine and falls in very graceful folds, widening as it lengthens. It is 15 feet long. It is edged with ermine and embroidered at intervals with royal crowns in gold. The train is lined with white satin.

Shown on a living model in our Garment Room, Second Floor, on Friday and Saturday, from 2.30 to 3.30. You're invited.

North and South Road Welcome to Edmonton's

If there is anything in the story published in the American press a month or so ago to the effect that the six hundred million bond flotation made by the Hill system was for the purpose of invading Canada, an application made at Ottawa yesterday for a charter to build north through Pincher Creek, Calgary, Edmonton and the Peace River to Fort St. John will be worth watching. Southern Alberta papers have it that this is the first of the Hill roads to be projected north, and it is a fact that engineers connected with the Hill system have been working close to the international boundary for some time.

It may be taken for granted that any enterprises which Hill may have in mind at the present time will be contingent on the reciprocity agreement going through, but of that there is now little doubt.

Western Canada has advanced along free trade lines far enough by now to be ready to welcome Hill or anyone else who wants to build railways. There is no longer any fear in this country that the national foundation will be shaken by a north and south road, and in fact a road from the south would be particularly welcome to Edmonton as it would hasten the day of fulfillment by opening a new pathway for pioneers into the prairies of the Peace.

A Personally Conducted Tour Of Edmonton Industrial Institutions

The circumstance that four million dollars worth of Edmonton industries will be represented at the exhibition, brings very forcibly to mind the fact that Edmonton is very rapidly developing into a first class industrial centre; one in which industries grow naturally and very rapidly from very small beginnings to large proportions purely upon the prosperity and development of the business of the country.

Of all cities in the Dominion of Canada Edmonton has fewer of the hot-house variety of industries of any. There are no bonused enterprises and no forced growths. Edmonton gives fair treatment to all and no favors, and the development witnessed within the past five years shows that the principle is sound and the policy advantageous.

To Edmontonians who may think they are in touch with the development of local industries, but who have not taken the time recently to visit the different industrial institutions, an afternoon spent in a tour of a dozen or so of the most prominent would probably come as a revelation. At the iron works, the garment factory, the box factory, the packing plant, the cement works, the cigar factory, the shops and roundhouses, the woodworking factories, the tent and mattress factories, or any one of a dozen or so other institutions, he would see things which would open his eyes to the importance of the industrial institutions of this city and he would return from the jaunt with a new idea of the developments which are going on around him.

One of the most fortunate things that could happen for Edmonton is that Edmontonians should get to know their own city, and in this connection the exhibition is made this year at the fair will help along the great educational work as nothing else could.

But, as it is always advisable to read the book before seeing the play, just so it is advisable to become acquainted with the industries before seeing the exhibits.

A personally conducted tour of Edmonton's industrial institutions under the auspices of the board of trade, for the benefit of Edmontonians, as well as for strangers, would be a great publicity work.

A Winged Messenger Of Universal Peace

Whirling out of the cycles of time there comes uncannily that equation which, with poetic justice, finds in every destructive agency the elements of self-destruction which lie within itself.

Back of all wars there is always to be found that little group of purse-holders and power seekers who, taking no part in the sanguinary struggles of the battlefield, urge men on to fight and while they sit safe behind the nation's bulwarks and reap the shekels and the coronets.

To these throughout the ages of every death-dealing invention has been hailed as a national achievement, every new armament a signal to pry open the national treasury. The richest rewards they have offered to the scientist and the mechanic for the development and refinement of the machinery of wholesale slaughter. From triumph to triumph in man-killers they have hurried the world along until every capital has become an arsenal and every nation an armed camp, standing at attention with bayonets set.

But at last they have over-reached. Out of the zest for engines of destruction has come the flying machine.

Only a few days ago an aviator dropped a package of letters on an Atlantic liner while at sea.

The package might as well have been a bomb.

A few days later eleven air men in a flock flew from Calais to Dover.

The flock might as well have numbered eleven hundred.

To give a thrill to a quarter of a million sight-seers Lincoln Beachy swept under the Suspension bridge at Niagara Falls, dropped into the gorge and, circling through the mist of the great cataract, almost touched its crest.

The flight might as well have been through the maze of wires and down in the canyons of Wall Street.

And yet parliaments continue to vote hundred million appropriations for battleships which would make an easy mark for the man with the flying machine and the nations of the world gaze upon the Spitfire coronation review with a feeling that security is lent by this vast armament to the countries under whose flag the ironclads sail.

Statesmen talk of arbitration and some say there will be no more war. Possibly not.

But if ever there comes another war it will be one in which the millionaire in his marble palace and the king on his throne will not be half as safe as the rats in the sewer.

The conquest of the air will make life altogether too unsafe for those who have hitherto profited by war but have taken no part in the conflict.

Universal peace will not be so difficult of accomplishment when those who stay at home are not less safe than the soldiers in the trench and the stokers in the hold.

"THIS DATE IN HISTORY"

July 6
1535—Sir Thomas Moore Chancellor of England, beheaded in London.
1771—Americans evacuated Ticonderoga and Mount Independence.
1802—Gen. Daniel Morgan, one of the conspicuous leaders in the American Revolution, died in Winchester, Va. Born in New Jersey in 1736.
1835—The Boston and Worcester Railroad was opened.
1861—Union forces driven back at the battle of Carthage, Mo.
1868—Samuel Lover, noted Irish novelist, died. Born in 1797.
1868—The Liberal republican party met at Ballinure and nominated Horace Greeley for President.
1893—Marriage of the Prince of Wales (George V.) and Princess Victoria of Teck (Queen Mary).

"THIS IS MY BIRTHDAY"

Katherine A. Tingley
Mrs. Katherine A. Tingley, leader of the Theosophists and founder of the colony at Point Loma, California, was born in Newburyport, Mass., July 6, 1817. After attending the public schools in her native place she completed her education in a convent in Quebec. On leaving the convent she took up her residence with her father in New York. Here she investigated Spiritualism, with the result that she opened up a physical manifestation and seances. Her investigations, however, led to her becoming a strong Theosophist. In New York she spent much of her time in missionary work among the poor. Some fifteen years ago, in company with other prominent members of the Theosophical Society, Mrs. Tingley conducted a world-wide tour in the interest of the Theosophical movement. Since the death of the late W. Q. Judge she has been the acknowledged leader of the society on only in America but in the world at large.

YOUNG WRITER IS EXCELLED BY PLAYERS

Continued from Page Two.
people was viewed by the older and more experienced actors in the Players with charity and indifference. The younger element, however, proceeded to contradict their critic instantly and emphatically in his declaration that "few actors know how to fool." The winners of the club corner debates on his utterances would have subscribed to that view. Even if they "all made some sort of bluff at it," as he words put it, they enveloped their discussions with realism.

The petition to the board of governors was the early upshot of this excitement. It was here that Mr. Barry's own temperament is reported to have played a speaking part. His friends declare that humility and painstaking suppression of his personal opinion, and among the many virtues they admire in his character.

Unofficial reports of what happened when Mr. Barry appeared before the governors in answer to their summons, following the petition, make his address on that occasion quite interesting. It is alleged to have regretted the meagreness of the opportunity given him by the subject of women's wages to expound fully his views upon the actor as a class. In any event the conference between the governors and Mr. Barry has been described as a "clash."

WESTERN CANADA WILL REQUIRE AN ARMY OF HARVESTERS TO

(Continued from Page One)

last this year will be extraordinary heavy. Shocks that on ordinary years have been dry, are now filled up and at present show as fine a ball of prairie grass as even the most ambitious rancher may wish to see.

Since the lamentable failure of range, cattle, hogs, sheep, and in some cases with the remarkable rise in the value of winter feed, the joy over this hay crop has a peculiar significance, and many farmers are anxious to have a surplus supply.

All this requires farm labor from the outside and these men must be obtained at once. Railroad officials seem to be alive to their obligations in this regard. There is talk of getting men from the south and from England, as well as drawing on the regular supply in eastern Canada. But men are needed today, and from how on a regular stream is necessary to supply the needs of the farmers.

Men Are Scarce.

Answers received from labor bureaus in the east to date show that the labor situation is not encouraging. Instead of being able to spare men, employers say they have not enough to meet their normal requirements. It is possible, though, that an altogether novel experiment will be made of bringing in from seven to ten thousand men from British Columbia, points, mainly from Vancouver. It has been pointed out to Sir William Whyte that, owing to the exceptional labor conditions prevailing at Vancouver, a large number of men are out of work.

The Canadian Pacific has been asked to grant some cheap fares for men from the east as are offered from eastern Canada points. There is little doubt but that these will be conceded, and that the prairie west in its hour of need will thus get help.

RECEIVE FREEDOM OF GLASGOW

Glasgow, July 6.—The colonial premiers and parliamentary delegates to the coronation, who are making a brief tour of the United Kingdom, arrived in Glasgow this morning and received the freedom of the city. Later in the day a visit was paid to the Glasgow Exhibition.

loria wharf at about 10:30, and will be received by the Lord Lieutenant and Countess of Aberdeen. At the Dublin city limits they will be met by the Lord Mayor and council in their scarlet robes and nurse bearers in uniforms of blue and silver. Soldiers will line the road as a guard of honor, while behind them will be columns of police, lancets and militia.

On their arrival at Dublin Castle the King and Queen will be received by the Lord Lieutenant and Countess of Aberdeen. The apartments which their Majesties will occupy at the castle have been completely refurbished and redecorated for the royal visit. A new and much-needed summer house has been built at the back of the state apartments. The additions and alterations have allowed a room with a beautiful decorated ceiling, which hitherto was not available, to be added to the Queen's residential apartments, thus making the royal visit it will be utilized as a small dining-room.

On the afternoon of their arrival their Majesties will leave the castle and proceed to the Royal College of Science for the opening ceremony. Afterward they will be escorted to Trinity College, where an address will be read, to which his Majesty will not be invited.

Leaving Trinity College the King and Queen will go to the Phoenix Park race course, and will drive thence to the viceregal lodge. The first day of their visit in Dublin will conclude with a state banquet at the castle, for which invitations have been issued to several hundreds of the officials and hostesses of the Irish capital.

A full programme has been prepared for Sunday, beginning with the attendance of the King and Queen at their state at the service in St. Patrick's Cathedral, followed by a visit to the Arlene Industrial School. Later in the day their Majesties will inspect the pensioners and girls of the Drummoinn Institute at the Royal Hospital.

A visit to the famous Leopardstown race course and a state banquet at the castle will be the chief events of Monday. During the day his Majesty will hold a levee at the castle. The Queen is expected to finish time to receive an address from the women of Ireland and also to pay a brief visit to County hospital.

Tuesday the King will inspect the Royal Irish Constabulary at the viceregal lodge, and will also attend a review of the troops and the presentation of colors in Phoenix Park. In the afternoon there will be a garden party at the viceregal lodge, and in the evening a court will be held at Dublin Castle.

Wednesday their Majesties will leave Dublin from Westland floor station, on arriving at Kingsdown they will depart for home on the Victoria and Albert. On their way to Epsom their Majesties will make a three days' stop in Wales for the investiture of the Prince of Wales at Caernarvon Castle, which event will take place on the day following the departure from Dublin.

The Shuberts have secured a new opera called "The Wandering Gipsy."

CONFERENCE OF BANK EXAMINERS
Chicago, Ill., July 6.—National bank examiners from North Dakota, South Dakota, Nebraska, Minnesota, Wisconsin, Iowa, Michigan, Northern Indiana and Northern Illinois rounded up in Chicago today for their annual conference. The examiners will spend two days in the discussion of methods with a view to arriving at the highest grade of efficiency in the examination of banks. Co-operation among examiners, State and clearing-house examiners is one of the important subjects that will receive attention.

MICHIGAN BAR MEETING

Battle Creek, Mich., July 6.—The annual meeting of the Michigan State Bar association, which began a two-day session here today, has attracted to this city many distinguished representatives of the bench and bar. Attorney General Wickens is on the programme to deliver the annual address. Other prominent speakers will be Prof. Jerome C. Knowlton of the University of Michigan, A. B. Eldredge of Marquette, Thomas E. A. Woodcock of Detroit, and Grant Fellows of Hudson.

What Advance Agents Say

CORONATION PICTURES AT THE ORPHEUM

The developments of modern science only has made possible the rapid reproduction of the coronation of His Majesty King George V. in moving picture for us it is being shown at the Orpheum theatre today and all this week. The pictures of the parade are complete in every detail and show particularly well the mounted police which attended the great celebration and the part they took in the function.

The rapidity with which the picture was taken, developed and shipped to Edmonton and is being thrown on the screen at the Orpheum is one of the marvels of modern science. The clearness of the film is little short of wonderful, every detail of dress and action not only of their majesties but of all those who participated in the parade and ceremony being clear and distinct.

The pictures are shown at the Orpheum every afternoon and evening. The management announces that on Friday the pictures of the mounted police participating in the celebration will be shown. They will be in Edmonton for only one day.

COMING TO EMPIRE

People wonder what is meant by the posters and cards seen with the words "Yes, He Grows." They refer to "Willard, the Man of Mystery," who comes to the Empire theatre next week, opening on Monday night. Willard is able to stand erect and increase his height from seven to nine inches. He extends his arms from twelve to fifteen feet. He is known as "The Human Telescope." He is able to do this extraordinary feat without any effort and can play the increased height for any length of time.

Physicians the country over are undecided to have led to this feat, but without effort, Willard is of course the star attraction with "The Man of Mystery" company, but there are many others. Martin E. Johnson, who with Jack London, spent three years in the far off South Seas, will be there with his wonderfully interesting monologues and Oss Johnson, the pretty comely star, will sing and play the piano. This company comes to Edmonton with the stamp of approval of the largest cities of the Northwest and should set a record of business at the

character actor was selected many years ago by Benjamin Thompson himself as his successor in the part of Joshua Whitehead, and it is claimed that he gives a most lifelike portrayal of this lovable character, so much so that people wonder if off the stage he is the same as on.

Of Prime, Seth Perkins, the Gummy Boy, Aunt Matilda, Hickety Ann, Happy Jack, the flower, The Harlow Spider, and the rest of his cast, all the other Old-time favourites are still on the picture and in the care of players most competent.

The faru bands' quartette delight with melodies old and new, Frederick Evans renders the "Palmers" with the assistance of the Church choir and everything is as of yore so New England days at the Empire is sure to be a popular one. Matinee will be given Wednesday and Saturday.

SELLS-FLOTO CIRCUIS

On Monday, July 17, the great Sells-Floto circus is billed to reach this city and they promise to outdo in every way the performances which they have given heretofore.

Already the city and country have been excited by the news of the attractions offered will prove justly that when the proprietors of this big Western circus announce that they have enlarged their show in every way there is a good deal of foundation for the statement.

The Sells-Floto circus is an independent organization operating entirely outside the combination generally known as the circus trust. For many years they have had a strenuous fight on their hands in order that they might exist, but last season they inaugurated a policy of cutting the regular admission price in half and it reports of their tour as far as anything the departure has met with unqualified success and approval everywhere.

This season we are told that they come back with a circus almost twice as large as that of former years. Their representative who is in the city, asserts that those who view the magnificent parade which will be given at 10:30 on the morning of the performance, will be fully convinced as to any statements made in that connection. The price of admission will be the same as last season, 25 cents is the standard.

LITTLE TOT IS AT POLICE STATION

BOY WHO SAYS HIS NAME IS MILLER DOES NOT KNOW WHERE HE LIVES

"I can't find my mother," sobbed little Gabriel Miller in the police station this morning where he had been taken by Joe Hardy aged ten years. Gabriel appeared to about four years old, wore a blue sailor suit and a straw hat. His face was tear-stained and he sobbed heartily.

Joe Hardy who found him on the street about ten o'clock this morning and brought him to the station explained that he was lost and could not tell on what street his home was. Inquiry was immediately started and for an hour the telephone was red hot calling up all the Millers listed in the directory and there was a lot of them. Those that did not have a phone were employed for at their place of labor but the child's parents were not located.

The child cannot speak English but as near as the police could make out his name was Gabriel Miller; his father's name was John Miller and he was a carpenter.

The child is a little tot with a broad white straw sailor hat covering a head of fair hair cropped close to the head. He was sobbing violently when brought to the station but under the care of the police men who gave him toys and amused him he soon broke into smiles. The search for his parents has temporarily been abandoned while the police await enquiries by the parents.

STIMSON TO INSPECT CANAL

New York, July 6.—Secretary of War Simon sailed today for Panama to make his first inspection of the progress of the canal work and the details of its fortification. Incidentally, the Secretary will stop at Havana to view the rules of the battleship Maine and will also visit Porto Rico to inquire into questions of sanitation and the present method of choosing municipal judges.

JOSEPH WATKINS—A Clown with

Empire. The press agent says everybody in town will be talking about Willard after Monday.

"THE OLD HOMESTEAD"

"The Old Homestead" returns at the Empire, Thursday evening, this is Benjamin Thompson's celebrated play, may under the direction of Mr. Franklin Thompson. The long lived qualities of this sterling play can be truthfully said to be stronger than any play of the past decade, and that it is being kept up to standard can be readily seen when the Montreal Herald gave the following review:

"There are many modern up start productions that lose in flaming posters of a twelve months' run in New York, while such hearty welcome as 'The Old Homestead' and 'The Old Homestead' so quietly on their way after a quarter of a century with more signs of vitality than one younger favorites of the day.

Clear, sweet and wholesome as the New Hampshire air that blows over the real Old Homestead at Swanzy, it was the simple humor of the piece rather than its more obvious pathos that appeals to the large audience that creates this play every night. The points of laughter are perennial and today the old cracks and saws come as freshly to our ears as they did to those of our fathers and mothers when Benjamin Thompson first produced this play."

The same company that appeared in Montreal comes to the Empire, in fact it is the same and under the direction of Mr. Thompson to retain as many of the former members of the company as possible. Mr. Wm. Lawrence, that delightful

Sells-Floto Circus Edmonton July 17

and charges an admission fee this year. Willard, the Man of Mystery, will be seen at the Sells-Floto people have always been an excellent reputation for his ability with the public, there is no doubt that their engagement with him will be an unequalled success.

The United Government League of London, representing the "disgraced" element of the Democratic party in that state, has nominated Judge Luther B. Hall, for governor.

PAGE EIGHT

REAL ESTATE BULLETIN

In business property Jasper avenue easily takes the lead in demand today, with warehouse sites also required for.

In residential lots the West End districts lead in enquiry, with Newwood and Delton following, the latter attracting attention on account of the large size of the lots (50x150 feet) and the low price at which they are being sold at present, making them certain of an advance in the near future.

In Houses, almost the entire demand is for the usual residential districts of the West End, particularly the H. B. Reserve and the Great Estate.

Subdivision land continues to be much enquired for.

Alberta Park

The roads are too bad to ask you to come out with us and look this over, but we will be glad to do so at the earliest possible opportunity.

We have some outside enquiry for it.

Today's Offerings Business Properties

The choicest lot available on Central Jasper... \$95,000
A corner lot on Jasper Ave. west... \$12,000
A double corner on First street, south of C. N. R. station... \$85,000

NEWS OF THE CITY

The Royal bank has opened a branch at Athabasca Landing.

Mr. Matthews, secretary of the City Baseball league, leaves on Friday for his home in Brownsville, Mo.

Mrs. B. G. Stockdale left on Tuesday for the coast on a visit to Seattle, Vancouver and other coast cities.

Miss Lillian Thibault left for the Pacific coast on Tuesday on a visit to Vancouver, Seattle, Portland and other cities.

Mr. Kydd has returned to her home at Macklin, accompanied by her cousin, Miss Mary Stewart, who will spend her holidays there.

E. L. Fuller, English master of the Edmonton high school left yesterday for London, Ont., to spend the summer at his home in that city.

A meeting is called for tomorrow night in this Craig-Nairn block, at 8 o'clock to organize a Conservative association along new lines for political work in the future.

S. W. Field, formerly of the firm of Denton, Dunn & Field, Toronto, came into the city yesterday to take the position of law clerk in the attorney's office.

The installation of officers takes place tonight at the L.O.O.F. Edmonton 20, and all members of city lodges and visiting brethren are welcome. A social will be held at the close.

Victor Ross, a representative of the Toronto Globe called at the board of trade yesterday to secure information relative to the Edmonton district for use in special articles on Western Canada, to be published in the Globe.

W. Matthews of the Central Trust Company leaves the city tomorrow morning for Brownsville, Mo. where he will visit relatives. He will also stay a short time at Chicago with friends. He will be absent from the city about six weeks.

Yesterday afternoon, Rev. Robert Keith, former pastor of the Methodist church at Port Perry, Ont., arrived in Strathcona to undertake the Methodist pastoral there. Mr. Keith will be there for three years in charge of the circuit at Port Perry.

Yesterday the first patients were received at the new asylum at Ponoka. The first patients to be received from Brandon, where Alberta's mentally unsound have hitherto been under treatment, will arrive at Ponoka about July 9 in a special train.

Strawberry festival and outdoor concert will be held at Mrs. Gray's lawn under the auspices of Christ church Women's Auxiliary tonight from 7 to 10 p.m. Refreshments, strawberries and ice cream and soft drinks, 10 and 15 cents extra. Candles and flowers for donations will be welcome in a little over a week's time.

J. Burt Morgan, general agent in this city for the Great West Life Assurance company, leaves on Saturday for Winnipeg, where he will attend a convention of the agents of the company in connection with the opening of the company's new head office building in that city.

John McLennan, a former resident of the Edmonton district, and who during the last few years has been the Canadian government's emigration agent at Aberdeen, Scotland, has been appointed successor to A. F. Jory, who has been transferred to the Emigration office at Exeter, England.

A special round-trip rate is announced by the Grand Trunk Pacific officials during the ten days of the annual Winnipeg exhibition. The tickets will be on sale June 10th, and the return limit will extend to the 25th. The fare begins on the 12th and runs to the 25th.

The regular meeting of the board of directors of the Y.W.C.A. will be held in the home, on Third street, on Saturday, July 8th, at 3 p.m. As this will be the last meeting of the board for two months it is specially requested that where there is a full attendance. The newly elected president, Mrs. Macraeth, will preside at the meeting.

Fifty-five first-class passengers for Alberta points, the majority of whom have declared their intention of settling in the Edmonton land district, left Montreal on June 27 by the Canadian Pacific railway. The party is in charge of Father Ouellette, who has associated himself actively with Commissioner Maclellan in obtaining a desirable class of settlers for Alberta.

The majority report of the board of education of the coal miners' strike, which is along lines unacceptable to either the miners or the operators, will be forwarded to Ottawa by Chairman Gordon. Mr. Gordon left for Winnipeg yesterday. It is almost certain that Mr. McLeod will sign the report, thus forming, with the chairman, the majority.

A consignment of 120,000 numbered tickets from the National Ticket Company of Shamolin, Pennsylvania, was received at the offices of the Exhibition administration yesterday. The tickets are in strips, 2,500 in a roll. There are 85,000 tickets for admission to grounds, 20,000 for admission to the grandstand, and 15,000 for admission to the chair section of the grandstand.

Mrs. D. D. Finch, of Mapleton, Ont., entertained a number of friends very pleasantly at 111 Belmont street on Tuesday afternoon in honor of her niece, Mrs. Kydd, of Macklin, Saskatchewan, who has been visiting relatives in this city. Mr. and Mrs. Finch are making a tour of the west and leave here on Thursday for Banff, Vancouver, Seattle and Portland. They will return to Edmonton in the course of a month on their way home.

CHARGED WITH FORGERY

A man by the name of Cady was arrested by the Mounted Police in the neighborhood of Winnipeg last night on a charge of forgery. Cady forged a check with the name of Cohen in Edmonton on June 1 and information was immediately laid by Mr. Cohen but the man had made good his escape. Cady was wanted on similar charges. Other charges have been laid in different parts of the west and they will probably be heard at an early date.

The forgery which was committed in Edmonton was a check for a small amount and was drawn on the Merchants' Bank.

POLICE COURT

Two drunks were given the usual fine in the police court this morning. A charge of harboring a dog was also adjourned until next week.

A charge of obtaining money by false pretenses laid by H. McDonald against a man named Edmunds was adjourned until next week.

H. Muller a fix mixer in one of the hotels in the city charged with assaulting G. W. Winter, whom he ejected from the hotel last night. Mr. Muller is a very old and feeble gentleman and states that the man struck him deliberately.

Charles Klein proprietor of the Grand View hotel is charged with assaulting G. W. Winter, whom he ejected from the hotel last night. Mr. Klein claims that the man was among his guests and that to insure their comfort he put him out. The charge will be heard by Magistrate Cowan this afternoon.

BUILDING PERMITS

The following permits were issued yesterday afternoon and this morning from the office of City Building Inspector Drabble:

Cushing Bros., warehouse and power house, 810-812, E. McKinnon street, 26,500 sq. ft. Forbes, house, McKenna avenue, 2,500 sq. ft. Wilson, four houses, 2500-2502, D. H. Morris house, Morris street, 2,500 sq. ft. G. W. addition, Kirkness street, 2,495 sq. ft.

NEW MACHINERY FOR ALBERTA COAL MINE

Within ten days time the plant of the Alberta Coal company, which was partially destroyed by fire on May 12, will again be in full operation, giving employment between sixty and a hundred men who have been out of work since the disaster, and turning out coal to meet the increasing demand to which the coal strike in the southern part of the province has given rise.

Geo. S. Montgomery, managing director of the company, has just returned from the east, where he completed the purchase of machinery for the neighborhood of \$30,000 was spent by him in new equipment, the material is now all on the ground and building operations will be completed in a little over a week's time.

The reports of the loss received in the first press dispatches were greatly exaggerated, according to Mr. Montgomery. The total loss did not amount to more than \$20,000, and only one of the buildings was destroyed.

Mayor Armstrong and City Solicitor Brown are expected to return tomorrow morning from Calgary where they have been in attendance at the meeting of mayors of the province to agree if possible on a general franchise act for the different municipalities.

General manager E. J. Chamberlain of the Grand Trunk Pacific, one arrival of the Grand Trunk Pacific, who arrived in the city last night, will call on Mayor Armstrong tomorrow for the purpose of arriving at some understanding with reference to laying tracks on McKenna avenue, between First and Sixth streets.

Mr. and Mrs. S. A. Gordon Barnes and children have returned from a two months' trip in the east. Mr. Barnes has changed his plans about moving to the coast and will remain in Edmonton.

Mr. H. F. Kenny, general secretary of the Alberta Sunday School association, and his party of specialists will arrive in the city tomorrow on their way to the summer school at Birch Lake, which commences on Sunday night. Mr. Kenny carries with him a full equipment of tents, chairs, spring cots, lighting, heating and cooking apparatus, and such things as are necessary for a well-arranged camp.

E. J. Chamberlain, general manager of the Grand Trunk Pacific, who came to Edmonton last evening from Winnipeg, left this afternoon on a trip of inspection over the line west of Edmonton as far as the head of steel at the Athabasca river.

According to W. P. Hinton, general passenger agent for the Grand Trunk Pacific, who returned to the city last night from a trip to Jasper Park, the temporary structure which is being erected over the Athabasca river at the mouth of Wolfe Creek will be ready for the passage of construction trains within the next two weeks.

FARMERS HOLD PICNIC

The first annual picnic of the United Farmers of Alberta, of the Edmonton district, opened at Glover bar this morning under the most favorable auspices. Several hundred of the members of the farmers' unions and their wives and families, foregathered at an early hour, and a programme of athletic events of an interesting character is being carried out during the course of the day. George Harcourt, deputy minister of agriculture, drove out this morning.

Mr. Harcourt, deputy minister of agriculture, drove out this morning. Mr. Harcourt, deputy minister of agriculture, drove out this morning.

PRIZES FOR TENNIS PLAYERS

W. W. Gough, treasurer of the Civil Service Tennis club, has received a cheque for \$200 from Mr. John Wiley of the Automobile Electric Co., Chicago. Mr. Wiley desires the amount used to purchase prizes for the best team in mixed doubles. Hon. A. C. Rutherford, Strathcona, has also forwarded \$25 to be used as prizes.

The players will not doubt be using the leisure time in preparing for the competition which will take place during the season.

UNITED AIDS CHARITY SHIELD

The first meeting of the United Aids Charity Shield committee was held in the parlors of the Y. M. C. A. last night. Mr. Ward of the Y. M. C. A. was appointed chairman, and Mr. Hinson secretary-treasurer. The committee are trying to get the names played off for this season. All entries must be in by 8 p.m., Saturday, July 8, to Mr. Hinson, secretary-treasurer, care of the Saturday News.
